If this box is checked, this appraisal is of a partial taking of ±35.37 acres and a value estimate of a portion of the property shall be required with a statement of the Highest and Best Use before the acquisition and the Highest and Best Use of the remainder.

If this box is checked this is **not** a Green Acres Program project and this appraisal must conform only to the specifications contained herein.

If this box is checked, this is a New Jersey Green Acres Program project, and this appraisal must conform with the Program's specifications as well as those contained herein. Please go to Green Acres Program website at <http://www.state.nj.us/dep/greenacres>; then into Site Index, then Appraisal Services – Scope of Work to obtain the current Green Acres Program specifications. All appraisers submitting a fee proposal for a Green Acres Program project must be on the Program's list of approved appraisers. Also, in addition to the site inspection, the appraiser may be required to attend a pre-appraisal, on-site meeting with representatives of the Park System and Green Acres.

If this box is checked, the appraisal will establish the current fair market value of a Conservation Easement. The Conservation Easement will protect the conservation values of the land by limiting future land use, development, or subdivision. The *Before and After* method of valuation will be used with the fair market value of the Conservation Easement being equal to the difference between the fair market value of the land it encumbers *Before* the granting of the easement and the fair market value of the encumbered land *After* the granting of the easement. The analysis will be on the land only, without consideration of improvements. The Before Value will be based on the "highest and best use" of the subject property per current zoning, available utilities, as-of-right lot yield and other relevant factors. The appraisal shall show the analysis used to establish the Before Value and will consider at least five (5) comparable sales. The After Value will estimate the value of the subject property after the granting of the Conservation Easement with the analysis of at least five (5) comparable sales under similar development restrictions. Again, the current fair market value of the Conservation Easement will be the difference between the Before Value and the After Value.

The ordinance rezoned the Old Orchard Property into three Zones, A, B, & C. The PIQ for this appraisal is in Zone B with principal permitted uses limited to Dedicated Open Space no less than 45 acres and Stormwater management facilities.     - e. Financing – parties, rate amount and terms.
    - f. Conditions of sale.
    - g. Location – block, lot, street address, municipality, county.
    - h. Total area.
    - i. Types of improvements, if applicable.
    - j. Zoning – use and area requirements.
    - k. Highest and Best Use at the date of sale.
    - l. Person or agency with whom sales information was verified.
    - m. Other pertinent analysis and evaluation data (i.e. utilities, easements, etc.).
    - n. Narrative explanation of each item of adjustment.
  3. A grid of comparable sales indicating categorical adjustments shall be included. It is recommended that, if total categorical adjustments exceed 40-50% for a comparable sale, that it be replaced with another comparable sale that will require less total categorical adjustment due to greater market similarities to the subject property.
  4. The appraiser must verify the financing and conditions of sale from the usual sources, such as buyer, seller, broker, attorney. Sales to non-profit groups must be verified with the Grantee to determine the zoning utilized or other special appraisal scenarios that would affect value.
  5. Pertinent comparable sales data shall include identified photographs of the comparable sale.
  6. All comparable sales shall be personally inspected in the field by the appraiser.
  7. Tax map depiction of each comparable sale is to be included.
  8. Value conclusion shall be shown as the value of the entirety or, if applicable, value of the portion of the property being appraised, and shall also be shown on a per acre basis for all land values.
- F. Where the Income Approach is used, the appraisal report shall be documented to support the income, expenses, interest rate, remaining economic life and capitalization rate.
1. Economic rent will be supported by comparable leases.
  2. Comparable lease location map and photos must be included.

3. When it is determined that the economic rental income is different from the existing or contract income, the increase or decrease shall be explained and supported by market information.
  4. When estimating the value of a leased fee estate or a leasehold estate, consider and analyze the effect on value, if any, of the terms and conditions of the lease.
- G. Where two or more of the approaches to value are used, the appraisal shall show the correlation of the separate indications of value derived by each approach as well as a reasonable explanation for the final conclusion of value.

**NOTE:** As the County of Monmouth is a condemning authority, there is a possibility the appraiser may be asked to appear before a condemnation panel or court to support the estimate of fair market value. For this reason, the appraiser is strongly encouraged to support all statements made in the appraisal regarding market trends and resultant impacts to value through the use of footnotes and by listing all sources. Generalizations and unsupported statements should be avoided. Along with this, all calculations should be clearly explained and illustrated for ease of understanding.

Also, prior land sales to the County of Monmouth and to all other Government entities transactions should not be used as comparable sales in the appraisal as County and Government entities have the right of Eminent Domain, which may impact value. However, as a last resort, when no other private comparable sales are available, and with the prior approval of the contracting agency (MCPS), sales to government agencies and/or nonprofit groups may be used but must be verified with the Grantee to determine the zoning utilized, as well as any other special appraisal scenarios, that would affect value.

Be aware that the appraisal will become a “public record” and may be subject to review through an Open Public Records Act (OPRA) request by either the public or the press. The appraisal will provide the basis for potential acquisition of real estate by the County of Monmouth for public park and recreation purposes and the expenditure of public open space funds.

Appraisal shall conform to common standards for written English with correct grammar, punctuation, tenses, etc. and present a value conclusion that is “reasonable and well-supported.”

### **PHOTOGRAPHS**

The appraisal shall include identified photographs of the subject property including all principal above ground structures or unusual features affecting the value of the property.

Labeled photographs of all of the comparable sales analyzed are required.

### **MAPS**

The appraisal report shall contain a tax map or project reference map of the subject property indicating boundary dimensions, locations of improvements and significant features of the property. In reference to partial acquisitions, a map indicating the area to be acquired, the relationship of the improvements to the taking area and the area of the remainder will be provided.

## **PROJECT IMPACT ON EVALUATION**

The appraiser shall disregard any decrease or increase in market value of the subject property prior to the date of valuation caused by the public improvement or project for which the property is to be acquired.

## **ADDENDA AND EXHIBITS**

The appraisal report shall include:

- A. Location Map – should show location of subject in relation to general area.
- B. Comparability Map – indicates subject property and location of comparable sales.
- C. Certified Letter to property owner.
- D. Deed, if sold within the last five (5) years.
- E. Wetland and orthophoto aerial maps as shown in this specification and supplied by the Monmouth County Park System.
- F. Plat plan and other pertinent exhibits.
- G. Wetlands and environmental constraints map.
- H. Soils map with soil type coverage and soil constraints and limitations to development.

## **WORK PRODUCT SUBMISSION**

**ORDINANCE 24-2023**

**BOROUGH OF EATONTOWN  
COUNTY OF MONMOUTH, STATE OF NEW JERSEY**

**AN ORDINANCE AMENDING CHAPTER 89, "LAND USE" ARTICLE VII "AREA, BULK AND USE REQUIREMENTS" SECTION 89-47 "SCHEDULE OF ZONE REQUIREMENTS"; AND SECTION 89-30 OF THE BOROUGH CODE "LIST OF ZONES" AND THE ESTABLISHMENT OF A NEW ZONE IN ATTACHMENT 1-EXHIBIT 3 ENTITLED "SCHEDULE OF ZONE REQUIREMENTS FOR THE MU-OO" MIXED USE OLD ORCHARD ZONE.**

**WHEREAS**, the Borough Planning Board adopted its most recent version of the Master Plan in 2018 which established the policies for land development and redevelopment within the Borough because it serves as the principal document concerning land use, and guides both public and private development in making land use decisions and it forms the legal foundation for the Borough's zoning ordinances and zoning map.

**WHEREAS**, the Borough Planning Board considered and adopted a 2023 Master Plan Reexamination Report pursuant to N.J.S.A. 40:55D-89 (the "Report") which is a review and evaluation of municipal planning documents and development regulations on a periodic basis to reflect the changing needs of the Borough.

**WHEREAS**, the Report, amongst other suggestions, recommends that the Borough Council create the MU-OO Mixed Use Old Orchard Zone by rezoning Block 2701, Lot 69 on the Borough Tax Map (the "Old Orchard Property") for age-restricted housing as a permitted use along the northern portion of the property and certain commercial uses along the Route 36 frontage within the current R-32 Residential Zone District to ensure the establishment of a significant buffer to the existing residential properties that abut the site and which allows for the distinction between the residential and commercial uses that have been identified as being permitted on the Old Orchard Property.

**WHEREAS**, the Borough Council believes it is in the best interest of the Borough to implement the Planning Board recommendation to rezone the Old Orchard Property by creating the MU-OO Mixed Use Old Orchard Zoning District which will limit the development of the site through the development of small lot age-restricted housing, preserve open space, and encourage the development of the property's frontage along Route 36 with appropriate commercial development.

## EXHIBIT C

### **AMERICANS WITH DISABILITIES ACT OF 1990 Equal Opportunity for Individuals with Disability**

The contractor and the County of Monmouth, (hereafter "owner") do hereby agree that the provisions of Title 11 of the Americans With Disabilities Act of 1990 (the "Act") (*42 U.S.C. §12101 et seq.*), which prohibits discrimination on the basis of disability by public entities in all services, programs, and activities provided or made available by public entities, and the rules and regulations promulgated pursuant there unto, are made a part of this contract. In providing any aid, benefit, or service on behalf of the owner pursuant to this contract, the contractor agrees that the performance shall be in strict compliance with the Act. In the event that the contractor, its agents, servants, employees, or subcontractors violate or are alleged to have violated the Act during the performance of this contract, the contractor shall defend the owner in any action or administrative proceeding commenced pursuant to this Act. The contractor shall indemnify, protect, and save harmless the owner, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages, of whatever kind or nature arising out of or claimed to arise out of the alleged violation. The contractor shall, at its own expense, appear, defend, and pay any and all charges for legal services and any and all costs and other expenses arising from such action or administrative proceeding or incurred in connection therewith. In any and all complaints brought pursuant to the owner's grievance procedure, the contractor agrees to abide by any decision of the owner which is rendered pursuant to said grievance procedure. If any action or administrative proceeding results in an award of damages against the owner, or if the owner incurs any expense to cure a violation of the ADA which has been brought pursuant to its grievance procedure, the contractor shall satisfy and discharge the same at its own expense.

The owner shall, as soon as practicable after a claim has been made against it, give written notice thereof to the contractor along with full and complete particulars of the claim. If any action or administrative proceeding is brought against the owner or any of its agents, servants, and employees, the *owner shall* expeditiously forward or have forwarded to the contractor every demand, complaint, notice, summons, pleading, or other process received by the owner or its representatives.

It is expressly agreed and understood that any approval by the owner of the services provided by the contractor pursuant to this contract will not relieve the contractor of the obligation to comply with the Act and to defend, indemnify, protect, and save harmless the owner pursuant to this paragraph.

It is further agreed and understood that the owner assumes no obligation to indemnify or save harmless the contractor, its agents, servants, employees, and subcontractors for any claim which may arise out of their performance of this Agreement. Furthermore, the contractor expressly understands and agrees that the provisions of this indemnification clause shall in no way limit the contractor's obligations assumed in this Agreement, nor shall they be construed to relieve the contractor from any liability, nor preclude the owner from taking any other actions available to it under any other provisions of the Agreement or otherwise at law.
